PETAL

Case Study | **Premium**

The Hive

Esteem achieves ultimate sophistication for The Hive, Sandyford.

Petal delivered a premium washroom solution for Sandyford's 'The Hive' – a Grade A commercial retail and office space set on Ballymoss Road, Dublin's premier south suburban office location. This landmark office building occupies a striking corner profile and provides premium office space, comprising 73,000 sq ft GIA over 4 floors.

Petal's full height Esteem veneer cubicles and mirror housing units provide maximum privacy and the highest quality specification for this prominent building. The smooth rebated doors and flush vanity units complete a minimalist styling in keeping with the fresh and contemporary feel achieved throughout the building.

Esteem's full height doors were selected in an oak finish, achieving a high end effect in the washroom area and providing full privacy to cubicle occupants. The P300 APS duct panelling was specified in black to provide a striking contrast with the light oak coloured veneer finish to the cubicle doors.
